1. AO = Administrative Order closed after compliance with the requirements of the order; APO = Administrative Penalty Order requiring compliance with environmental regulations and assessing a penalty; CACO = Consent Agreement and Compliance Order requiring compliance with environmental regulations and/or assessing a penalty; CJ = Civil Judicial Case with the Department of Justice

2. All penalties are Final

3. SEP = Supplemental Environmental Project

Narrative Summary:

GLECO PLATING, INC., ROWLETT, TX: On August 30, 2000, EPA simultaneously filed a Complaint and Consent Agreement and Final Order (CAFO) against Gleco Plating, Inc. The CAFO resolved the alleged violations of the Resource Conservation and Recovery Act (RCRA). Gleco was found storing hazardous waste without a permit or without having interim status during a Compliance Evaluation Inspection (CEI) conducted at the facility in violation of the permit exemption requirements under RCRA. EPA determined the penalty for the Complaint to be \$3,575.00.

MEYER'S BAKERY, CLEBURNE, TX: A Stipulated Settlement and Order of Dismissal with a total penalty of \$3.5 million was filed on September 8, 2000, to settle outstanding claims for violations of the Clean Air Act regarding the protection of the stratospheric ozone. This settlement, filed in U.S. District Court in Fort Smith, Ark., is the largest settlement in the history of the U.S. Environmental Protection Agency's (EPA) stratospheric ozone protection program. Meyer's is a large commercial bakery that produces bread, muffins and other bakery goods for distribution throughout the United States and Canada. The violations occurred at Meyer's facilities in: Hope, Ark.; Arizona City, Ariz.; Orlando, Fla.; Wichita, Kan.; and Cleburne, Texas, involving leak repair requirements for industrial refrigeration equipment. This agreement sets a new precedent for EPA enforcement of leak repair regulations at industrial facilities. EPA is committed to increasing its oversight of these facilities to achieve greater compliance with the regulations to ensure protection of public health and the environment.

R&L PLATING, DALLAS, TX: During a Compliance Evaluation Inspection (CEI) on October 18 & 19, 1999, EPA found that R&L Plating was storing hazardous waste in containers without meeting the permit exemption requirements in two container storage areas. Additionally, EPA found that the company had failed to make a hazardous waste determination for a hazardous waste generated and stored on-site. The company agreed to pay \$ 6,050 for the alleged violations in the Complaint/CAFO . The Complaint/CAFO was filed September 28, 2000 for a civil penalty amount of \$6,050.
